## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4, drawn to a light-emitting device.

Group II, claim(s) 5-18, drawn to a manufacturing method of a light-emitting device.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The subject matter of claim 1 is taught (anticipated) by EP 0921577 (cited in international search report) (see Figures 6A and 6B). Therefore, the subject matter common to groups I and II does not relate to an inventive concept.
